

I'm concerned about the affects of LPFM on the Air1 station I currently listen to. Air1 gives me an option of clean, uplifting music for my commute each day which has had a termendous impact on my personal, professional and spiritual life. I not only listen to Air1 but financially support the radio station. My belief in it's purpose is unyielding. Many people have turned from a life of crime, drugs and other abuse due to their exposure to the station. The United States needs this type of influence now, possibly more than ever. Please do not make a decision that Air1's ability to reach listeners.
